PRELIMINARY AMENDMENT

Sir:

Prior to the examination of the above-identified application, please enter the following amendments and consider the following remarks.

IN THE SPECIFICATION

Included with the divisional application transmittal documents filed herewith is a revised specification to assist the Examiner in examining the pending claims. Specifically, the enclosed specification has been amended to correct a large number of typographical errors, to correctly recite citations to numerous references listed in the parent application, to correct an error in the structures presented on pages 8 and 9 of the parent application and in Figure 3 as originally filed. All of these amendments were reviewed and considered by the Examiner in the parent application and were deemed appropriate for entry into the parent application. Thus, to facilitate examination of this application, these amendments are incorporated into the present application. Applicants assert that no new matter is added by these amendments and applicants respectfully request entry of the revised specification into the present divisional application.
